

GLASSTILE

Turn any space into an extraordinary work of art with glass tiles. Naturally translucent glass tiles capture all the natural simplicity and beauty of glass with an enchanting variety of colour. Used as an accent with natural stone, glass tiles can bring any interior to life. For a bolder statement choose a floor to ceiling tile mosaic that traps and reflects light for an iridescent ripple effect.

With a choice of two exquisite ranges of glass tile, you can create your own unique vision in a variety of colour, shapes and style that is limited only by your imagination.

GLASSTILE

SIZES

We have a wide variety of sizes and formats available. Please speak to one of our sales consultants for more details.

RECOMMENDED APPLICATIONS

This product is suited for both interior and exterior walls. It can also be used in submerged conditions such as swimming pools and spas.

LAYING RECOMMENDATION

- A 2-3mm joint between tiles
 - The use of white mosaic fix under normal conditions and an epoxy based adhesive under submerged conditions (i.e. swimming pools, spas etc)
 - White or colour matching grout
 - Due to the translucent nature of glass tiles, it is important to ensure that there is a continuous bed of adhesive to avoid imperfections showing through the tiles
 - Existing expansion joints are to be respected and not tiled over
 - Use expansion joints as prescribed by architect or specialized tiler
 - Tiles should be laid on a level and even screed which should have been cured for about one week before tiling
-

PRODUCT CARE AND MAINTENANCE

No sealing is required. Only use fine, non-abrasive cleaning instruments to avoid scratching the surface of the tiles. For everyday maintenance we recommend the use of Windowleen or a neutral pH detergent. Do not use acid or alkaline detergents as repeated application could damage the tiles.
