SALONI

cerámica

800 x 800mm
12,4mm

VI

Crema

The Visual range features large format, polished tiles with an appearance that is very similar to Marble.

VISUAL

SIZE

Rectified, coloured biscuit

800 x 800 x 12,4mm

RECOMMENDED APPLICATIONS

The Visual range is suitable for both residential and commercial applications, including areas exposed to moderate traffic. It can be used in various applications including internal floors and walls and external walls.

LAYING RECOMMENDATIONS

- A 1-2mm joint between tiles.
 - The use of TAL Professional tile adhesive.
 - The use of TAL grout
Crema – Ivory grout
 - Existing expansion joints are to be respected and not tiled over
 - Use expansion joints as prescribed by architect or specialized tiler
 - Tiles should be laid on a level and even screed which should have been cured for about one week before tiling
-

PRODUCT CARE AND MAINTENANCE

Due to the extremely low permeability of Porcelain, it is highly resistant to stains. Spills should however be cleaned as soon as possible and the surface cleaned with warm water and a mild household detergent. For everyday maintenance we recommend cleaning with any mild household detergent and rinsing with warm water.

* For more detailed technical information regarding recommended applications please speak to one of our sales consultants.

VI Colour/shade variation. Tiles have a uniform appearance. Differences in tiles from the same production run are minimal.

* **NOTE:** The “V” ratings are not an indication of quality of the tiles, but rather an indication of the variation in tone that has been intentionally designed this way to deliver a particular effect in the finished product
